Reading Tips

Top tips to help families discover the magic of reading

Books and stories are magical. They can take you on exciting adventures, where you can learn new things and be transported to faraway places filled with mythical creatures as you and your child create the story. When families read or create stories together, the possibilities are endless.

Here are some top tips from the National Literacy Trust to help families bring stories to life at home:

- Ask your child to choose their favourite character and explore their choice. What do they like about that character? How is it different to the others?
- With your child, make up a story about one of the characters and their adventures.
- Pick books about things your child is interested in. Whether they love mythical creatures, ballet or dinosaurs, there's a story for every child to enjoy.
- Stories come in all shapes and sizes, from books and comics to magazines and fact files. All reading counts so get exploring!
- Why not give audiobooks and storytelling videos a try? They can be really fun and are also great for children who aren't keen on reading.
- Make time to share stories as a family as often as you can. You could try reading a bedtime story together or listening to an audiobook on a car journey.

The National Literacy Trust is proud to partner with McDonald's to help families discover the magic of reading together.
